

KSENIA COULTER

WEB DEVELOPER

kseniacoulter@gmail.com – github.com/kscoulter – medium.com/@kcoulter – www.kseniacoulter.com

Front end web developer with design taste and strong interest in user experience. Background in neuroscience research, helps bring a deep understanding of human behavior to my work. I seek out opportunities to give back to the tech community by mentoring new developers, writing, teaching code, and speaking.

SKILLS

LANGUAGES: HTML5, SASS/CSS3, JavaScript, PostgreSQL, Oracle SQL.

LIBRARIES/FRAMEWORKS: React, Node, jQuery.

MISCELLANEOUS: Webpack, Git/Github, SVN, AMP HTML, PWA, Heroku, OOP, Agile, JSON/AJAX, XML/SOAP, Adobe Photoshop.

EXPERIENCE

WEB DEVELOPER: The Washington Post, DC, 2016 - Present

Worked on development and refactoring of a Progressive Web App (PWA) for Infobae - one of the largest Spanish-language publications in the world. PWA is particularly important for Latin American audience because of connectivity issues common in the region. Our pages resulted in a low bounce rate of 6.8% and engaged readers for over 5 minutes.

Spearheaded native support for Google's Accelerated Mobile Pages (AMP HTML) for Infobae.com

Drove New Zealand Herald website redesign and development. Worked closely with all stakeholders in order to keep the project advancing at pace despite the significant time zone differences, including working on-site with for launch. Nzherald.co.nz won Canon Media Awards for Website of the Year in 2017.

ASSOCIATE CONSULTANT: Counterpoint Consulting, VA, 2015 - 2016

Built an internal applicant tracking system. Responsible for file upload functionality and integration with Google Drive.

Worked on continuous enhancement of eConsultant2 application to ease the procurement process and meet the changing needs of the World Bank Group. Provided on-site client support.

Contributed to internal Counterpoint Consulting knowledge base by writing technical articles.

EDUCATION

UNIVERSITY OF CALIFORNIA, DAVIS: BS, Psychology *magna cum laude*, 2012

GENERAL ASSEMBLY, 2015

LEADERSHIP

DC Tech Meetup - Organizer

Women Who Code DC - Networking Team Lead
